EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with David J. Cole on February 15, 2005.

The application has been amended as follows:

1. Cancel claims 18-23.

Application/Control Number: 10/707,991 Page 3

Art Unit: 2873

Allowed Claims: 1-17.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: none of the prior art either alone or in combination disclose or teach of the claimed combination of limitations to warrant a rejection under 35 USC 102 or 103.

Specifically, with respect to independent claim 1, none of the prior art alone or in combination disclose or teach of an electrophoretic display comprising an electrophoretic medium comprising a plurality of capsules, each comprising a capsule wall, a suspending fluid held within the capsule wall and at least one electrically charged particle suspended in the suspending fluid as claimed, specifically further wherein the electrophoretic medium comprises a liquid in which the capsules are suspended.

Specifically, with respect to independent claim 11, none of the prior art alone or in combination disclose or teach of an electrophoretic display comprising an electrophoretic medium comprising a plurality of capsules, each comprising a capsule wall, a suspending fluid held within the capsule wall and at least one electrically charged particle suspended in the suspending fluid as claimed, specifically further wherein the electrophoretic medium comprises a liquid in which the capsules are suspended.

Specifically, with respect to independent claim 17, none of the prior art alone or in combination disclose or teach of a process for forming an electrophoretic display comprising providing an electrophoretic medium comprising a plurality of capsules, each comprising a capsule wall, a suspending fluid held within the capsule wall and at least

Art Unit: 2873

one electrically charged particle suspended in the suspending fluid as claimed, specifically further wherein the electrophoretic medium comprises a liquid in which the capsules are suspended.

CITATION OF RELEVANT PRIOR ART

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Eldon et al (U.S. 2003/0218595 A1) is being cited herein to show an electrophoretic display disclosing structural limitations of that of the claimed invention. However, due to the filing date of the reference, it does not qualify to be used towards a rejection of the application.

CONCLUSION

Any inquiry concerning this communication or earlier communications from the examiner should be directed to William C. Choi whose telephone number is (571) 272-2324. The examiner can normally be reached on Monday-Friday from about 9:00 am to 6 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Georgia Y. Epps can be reached on (571) 272-2328. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
